

Deep Purple, Lady Luck

(cook/coverdale)

She was a juke-box dancer
A blue eyed gypsy queen
She always had an answer
For what she'd done
And where she'd been
A feathercane lady midnight
For all around to see
She spoke with words of wisdom
And this is what she said to me

Lady luck
C'mon give me what i want
Pull me up
Lady luck
If i see you again
I will call you my friend

I have always been a sinner
But then the lady came along
She stole my heart and turned me 'round
'till i didn't know right from wrong
She whispered words of kindness
I'd never ever heard before
Golden words and silver tongue
Till i really couldn't take no more

Lady luck
C'mon give me what i want
Pull me up
Lady luck
If i see you again
I will call you my friend
C'mon shake me
