

# Deepcentral, Speed of Sound

You've got my whole head spinning round  
I've never been high off the ground  
I had you searching, now I've found  
We're living at the speed of sound.

Don't think and let me make you feel right  
You ask, I will make sure that it lasts  
Tonight, everything is black and white

Black and white,

Oh...ah...  
It's time to take a ride  
Oh...ooh  
Oh...oh  
Your body I decline.  
oh...oh

Come on, come on  
Your head spinning round  
Come on, come on  
So high off the ground  
Tonight we're on, you and me baby
