

Deepface, Been Good

I been good but...
I been good but..
I been good but..
I been good but..
..i can be better.
..i can be better.

In the night, alright..
I'll fly on silver wings.
When the morning comes, i'm gonna to do it all again.

Gotta get myself together..
I've been good, but i could be better.
Gotta get myself together..
I've been good, but..
All night alright, lets get it on tonight.
I've been good but I could be better.
All night alright, lets get it on tonight.
I've been good but I could be better.

I feel no pain,
.. I give out, what i take.
Any time you like, you give me your heart to break.

Gotta get myself together..
I've been good, but i could be better.
Gotta get myself together..
I've been good, but..
All night alright, lets get it on tonight.
I've been good but I could be better.
All night alright, lets get it on tonight.
I've been good but I could be better.
I've been good but I could be better.
I've been good but I could be better.
I've been good but I could be better.
