## Def Leppard, Burnout

Friday night and I crashed your party Saturday night and I crashed your car Sunday night when you threw me out Couldn't believe I even got that far Look out of your bedroom window And tell me what you see Who's that standing in the shadows Oh baby you belong to me, yeah

Place your bets cause I got a good feeling Hey over there, are you lookin' my way Electrified like a shock to the system You walk right through my DNA

If you could just walk for a mile in my shoes
If you don't lose your mind you got no mind to lose

Bang bang gonna shoot you down
I got me a gun but I gotta get a better one
Sweatin' hard, buzzing like a fly
Like a, like a thief with a water-tight alibi
High hopes are sinking like a stone
I swallow my pride but I'm choking on a fishbone
Oh my, I gotta try, so step right up

I'll give you what you want It's what you need You know I'm gonna give you what you want And what you need, yeah

Head over heels and it's making me nervous Get on my knees and it's making me worse There's no way out so I pay lip-service If this thing is bigger than the both of us

If you could just walk for a mile in my shoes
If you don't lose your mind you got no mind to lose

Bang bang gonna shoot you down
I got me a gun but I gotta get a better one
Sweatin' heart, buzzing like a fly
Like a, like a thief with a water-tight alibi
High hopes are sinking like a stone
I swallow my pride but I'm choking on a fishbone
Oh my, I gotta try, so step right up

I'll give you what you want It's what you need You know I'm gonna give you what you want And what you need, yeah

Bang bang gonna shoot you down I got me a gun but I gotta get a better one Oh my, I gotta try, so step right up

I'll give you what you want
It's what you need
You know I'm gonna give you what you want
And what you need, yeah
You know I'm gonna give you what you want
You know I'm gonna give you what you want
You know I'm gonna give you what you want
And what you need, yeah
