

Def Leppard, Fire It Up

Fire it up fire it up fire it up
Born to raise hell
Since I lost my heaven
Couldn't find nine kid
I'm on cloud seven
Cherry top lover
With a chemical metal
Heater on high
Like pot on kettle
Jukebox gospel
Raise it up another level
Young street apostles
With their hallelujah peddles
Preachers in the bleachers
Keep on dancin' with the devil
Swingin' with the king
Like an Elvis made of velvet
Bring the beat beat back
Bring the beat beat back (woahhh)
Let me see ya light
Spark the dynamite
Here we go
Fire it up, fire it up
Blow a hole in the sun
Till you get what you want
You gotta
Fire it up, fire it up
Blow a hole in the sun
Till you get what you want
Blaze on
Nuclear radio
Kiss the devastation
Cradle to the stadium
Burnin' on the pavement
Fishin' for religion
On a mission salvation
History's the soundtrack
Wake ya generation
Bring the beat beat back
Bring the beat beat back (woahhh)
Let me see ya light
Spark the dynamite
Here we go
Fire It Up, fire it up
Blow a hole in the sun
Till you get what you want
You gotta
Fire it up, fire it up
Blow a hole in the sun
Till the damage is done
Blaze on
Hi hi higher, hi hi higher
Hi hi higher (ohhh)
Hi hi higher, hi hi higher
Hi hi higher
Let me see ya light
Spark the dynamite
Here we go
Fire it up, fire it up
Blow a hole in the sun
Till the damage is done
Blaze on
Fire it up, fire it up
Blow a hole in the sun

Till you get what you want
You gotta
Fire it up, fire it up
Blow a hole in the sun
Till the damage is done
Blaze on blaze on blaze on
