

# Def Leppard, Gravity

Can't sleep at night  
The darkness enslaves me  
I turn out the light  
And no one can save me

So try not to stare 'cause I'm stripped to the bone  
It's a trick of the light and I'm lost

Feel like I'm falling  
Gravity is dragging me  
My head's about to break  
Can't break my fall  
Insanity inside of me  
It's like I'm wide awake  
Feel like I'm falling  
Can't recognize  
I'm hypnotized  
These feelings got me plagued  
Can't take it all  
This gravity is killing me  
I can't stand up from falling down

I lie to myself  
It don't make it easy, easy  
If somebody else  
Would only believe me

My sweat soaks the sheets and I'm hung out to dry  
It's a trick of the light and I'm lost

Feel like I'm falling  
Gravity is dragging me  
My head's about to break  
Can't break my fall  
This gravity is killing me  
I can't stand up from falling down  
Feel like I'm falling

Wake up

Falling  
Don't try to catch me, just let me fall  
Eyes wide shut, don't make a sound  
Keep falling till I hit the ground

Feel like I'm falling  
Gravity is dragging me  
My head's about to break  
Can't break my fall  
Insanity inside of me  
It's like I'm wide awake  
Feel like I'm falling  
Can't recognize  
I'm hypnotized  
These feelings got me plagued  
Can't take it all  
This gravity is killing me  
I can't stand up from falling  
Feel like I'm falling  
Gravity is dragging me  
My head's about to break  
Can't break my fall  
Insanity inside me  
It's like I'm wide awake

Feel like I'm falling  
Can't recognize  
I'm hypnotized  
These feelings got me plagued  
Can't take it all  
This gravity is killing me  
I can't stand up from falling down
