

Def Leppard, Medicine Man

I'm the doctor, I can mend your broken heart
I'm the healer, I could take you right back to the start

So if you wanna take the chance well you better be sure
Baby, I'm the medicine man, I've got the cure
I'm the medicine man

I will make you the kinda girl that feels no pain
I can take you and put you back together again

So if you wanna jump on board well you better be sure
Baby, I'm the medicine man, I've got the cure

I'm the medicine man
That's what I am
Doing what I can
Cause I'm the medicine man

Listen, lady, don't make me drive you outta your mind
Cause together this remedy's not hard to find
So if you wanna take the chance and I'm damn sure that you do
Baby, I'm the medicine man
Now the rest's up to you

I'm the medicine man
That's what I am
Doing what I can
Cause I'm the medicine man

Medicine man, medicine man
