Def Leppard, Pearl Of Euphoria

Your price, name the time The suspect or the crime The shadow of my gun Get down or you can run

Feed the demon, kiss the flame, feel your desire Empty room, turn the key You're never alone When you're with me

Temptation, break the vow Cut flesh from the sacred cow Unchain the tiger, kiss the flame, feel your desire Feed the demon, kiss the flame, feel your desire

Soaked in fear, the curtain falls Religion within these walls Mystify my soul beliefs Confession is my release

Feed the demon, kiss the flame, feel your desire Unchain the tiger, crucify, feed your desire Pearl of euphoria Pearl of euphoria
