

# Deftones, Dai The Flu

I always wondered what it takes  
fifteen stitches and a soft parody  
to make my eyes be like deceit,  
believe the sting, proves heart to me  
and now I know that you love me  
thank god that you love at all  
dislocated at the joint  
timing is everything in the bed  
'cause you'll sleep for hours to keep away  
then sink the teeth and bat your eyes  
now I know that you love me  
thank god you love at all  
what surprise I was right here going off and going on [repeat]  
at least now I know that you love me  
thank god that you love at all  
what surprise I was right here going off going on dai the flu
