

Deftones, Prayers/Triangles

There's a new strange
Godless demon awake inside me
There's a force divine
Terrorizing the angels I keep
While we dream

Prayers
Lay on the line
We'll never be free
You'll never be free

I'm a true slave
To the fire and the air around you
While this curse divine
It's slowly rotting away inside me
While we dream

Prayers
Lay on the line
We'll never be free
You'll never be free
Triangles
Placed in your mind
You'll never be free
You'll never be free

Beware /4x

I will never walk this street again!
The only time feel I'm not alone!
I hold my heart and I wave it in the air
