Deftones, Prayers/Triangles

There's a new strange Godless demon awake inside me There's a force divine Terrorizing the angels I keep While we dream

Prayers Lay on the line We'll never be free You'll never be free

I'm a true slave To the fire and the air around you While this curse divine It's slowly rotting away inside me While we dream

Prayers Lay on the line We'll never be free You'll never be free Triangles Placed in your mind You'll never be free You'll never be free

Beware /4x

I will never walk this street again! The only time feel I'm not alone! I hold my heart and I wave it in the air
