

# Deftones, Swerve City

She breaks her horses  
With strange distant voices  
That travel through the air  
They travel through the air

She tames me with her voices  
As she plays around with her forces  
That travel through the air  
They travel through the air

Ooh the distant howling out  
Keeps you floating around  
Ooh distant howling out forces  
Floating around

She breaks her horses  
With strange distant voices  
That travel through the air  
They travel through the air
