

# Deine Lakaien, Carriage Song

Wandering about in a universe  
Back and forth - torn  
Strandgoods of the galaxies  
Back and forth - torn  
Exhausted, starved, yet still a hunter  
Hidden, lurking behind some planets  
in narrow lanes, in narrow lanes  
Dark star you are the light of my night  
Dark star won't you be my guide  
Dark star why do you run from me  
Dark star why don't you kill me  
How long ago when I ran into you  
Spark discharges - dazzled  
Since that moment I've lost my way  
Back and forth - dazzled  
Exhausted, starved, yet still a hunter  
Hidden, lurking behind some planets  
"Faster! Faster!"  
Moons and planets passing by  
Faded through light - blind  
Men forged to black mountains  
Faded through love - blind  
Screens may be distorted  
Radars may be deaf  
Hunting for love, hunting for love
