

Deine Lakaien, Made In Heaven

Sometimes you feel lone
Sometimes you feel sad
and when you come home
fall into your bed
you weep all night long
no way to get out
still I know some words
you should think about
Don't forget
Love will not die
You fought in th street:
stood up against war
but things became worse
and hope was no more
then all your companions
had left you alone
you'll never give up
you always go on
Don't forget
Love will not die
Remember the days
long time ago
when people were fighting
against Vietnam war
and in these days
of hate and despair
they put some flowers
into their hair
Don't forget
Love will not die
