

# Deine Lakaien, Nightmare

my winter searches  
my coldness needs  
my sun shines  
my night lies  
my spring will come  
my winter is searching you  
my coldness needs you  
my sun is shining  
my night is lying  
my spring will come  
my winter is searching you now that you are gone  
my coldness doesn't need you anymore  
my suns don't shine for long  
my night lies in snow and frost  
my spring will come  
my spring will come  
will become  
your winter
