

Deja Vu, I Can't Stop

The moment's looking right
Just love and not a fight
So tonight I think we're gonna make it happen
Your voice gives me desire
Just you can give that fire
So baby can't you see
You are the only one for me

I can't stop thinking of you
'Cause you're the one I want tonight
You make me feel so right
Let's make it true
I can't stop thinking of you
'Cause you're the one I want tonight
You make me feel so right
Just me and you

The stars are looking bright
The moon is striking night
So tonight I think we're gonna make it happen
Your voice gives me desire
Just you can give that fire
So baby can't you see
You are the only one for me

I can't stop thinking of you
'Cause you're the one I want tonight
You make me feel so right
Let's make it true
I can't stop thinking of you
'Cause you're the one I want tonight
You make me feel so right
Just me and you

I can't stop thinking of you
'Cause you're the one I want tonight
You make me feel so right
Let's make it true
I can't stop thinking of you
'Cause you're the one I want tonight
You make me feel so right
Just me and you
