

# Del Amitri, Don't Come Home Too Soon

So long, go on and do your best  
Let all France have whiskey on its breath  
The world may not be shaking yet but you might prove them wrong  
Even long shots make it

So go then, out into history  
And show them how easy it can be  
And you might not believe it yet but pretty soon you'll see  
Even long shots make it

Just don't come home too soon  
Just don't come home too soon

I don't care what people say  
We can laugh it all away  
If I have a dream at all it's that for once you won't be on that stupid plane

And the world may not be shaking yet  
But you might prove them wrong  
Even long shots make it

Just don't come home too soon  
Just don't come home too soon  
I don't care what people say  
We're gonna laugh it all away
