

Del Reeves, I'll Go Get The Tool Box

I sat there with my teardrops showing just the way I felt
Looking at my emptiness the one I love had left
My little boy said daddy mommie's left us all alone
I'll go get the tool box you can fix our broken home

You can fix our broken home daddy I just know you can
I saw you fix my wagon now the wheels are tight again
Things will turn out alright daddy don't cry cause mommie's gone
I'll go get the tool box you can fix our broken home

You should have heard my tiny boy more courage in this man
Courage to repair our shattered world now right again
Thanks to him I found her these words pushed me along
I'll go get the tool box you can fix our broken home

You can fix our broken home...
