

# Del Reeves, Puttin' In Overtime At Home

If they call for me and wonder where I am  
Tell them I'm not feeling well today  
If they don't believe you I don't give a damn  
I just might pick up the phone and say

Puttin' in a little bit of overtime at home  
Puttin' in a little bit of overtime at home  
If there's anything on earth I feel the need to do  
It's stay at home from work and play a while with you  
Today just let the world leave me alone  
Cause I'm puttin' in a little bit of overtime at home  
( guitar )  
Everyday they get ten hours of my time  
And I bring home to you what's left of me  
With an aching body and a worried mind  
But today that ain't the way it's gonna be

I'm a puttin' in a little bit of overtime at home...  
Puttin' in a little bit of overtime at home
