

Delain, One Second

Don't want to close my eyes again
Cause every time I do you're there
With that smug look on your face
Don't want to fall asleep again
Cause every time I dream
I love and lose you
Over and over again

It takes a second just to fall in love
It takes a second just to fall in love
Against the odds
Despite myself
Yeah, just one second to love
Just one second to love

It doesn't really matter how
Much time has passed
It always goes to show

It takes a second just to fall in love
It takes a second just to fall in love
Against the odds
Despite myself
Yeah, just one second to love
Just one second to love
