

Delta Goodrem, Believe

Every day you seem to be away from me
ooooh
Like every time you see me
you always say no
to my questions that I ask

I ask to be alone
i ask to to stay home
i ask you to leave me ooooo baby

Dont even say that i dont love
dont even say i dont want you because
you know that i do
you just have to believe it
oooh

come on just follow me away
my heart is set on you
please dont break it
just be mine and stay forever

its just like old times
you and me together
walking along the beach
staying close forever
never letting go
we held on tight
and i hope that wil be foverer
