

# Delta Goodrem, Hear Me Calling

World is calling, patience falling  
Distant dreams and thoughts of you  
Time is wasted in far off places  
Wish I could fly and be with you

No time for sentimental thoughts in my head  
 Do you keep me in your dreams, can you hear me calling  
 Hear me calling

And I know you're there  
 I search the stars  
 To see your face lit in the sky  
 I love this place and I know why  
 You're always there in my mind  
 But I wish that I could hear  
 You're silly voice sing in my ear  
 Hold you're hand and hold you near  
 And if I fall you can hear me call

Makes me wonder, the spell I'm under  
Trapped inside me, will I be true  
So much to see, where will I be  
My world is changing and I change with you

No time for sentimental thoughts in my head  
 Do you keep me in your dreams, can you hear me calling  
 Hear me calling

And I know you're there  
 I search the stars  
 To see your face lit in the sky  
 I love this place and I know why  
 You're always there in my mind  
 But I wish that I could hear  
 You're silly voice sing in my ear  
 Hold you're hand and hold you near  
 And if I fall you can hear me call

No time for sentimental thoughts in my head  
 Do you keep me in your dreams, can you hear me calling  
 Hear me calling

And I know you're there  
 I search the stars  
 To see your face lit in the sky  
 I love this place and I know why  
 You're always there in my mind  
 But I wish that I could hear  
 You're silly voice sing in my ear  
 Hold you're hand and hold you near  
 And if I fall you can hear me call
