

# Delta Goodrem, Predictable

I smile  
You say I take your breathe away  
You say you love me and you make  
All the right promises to break

And when I turn around you're always there  
Like that's the proof you really care  
But I see right through you and I think  
To myself

You're just so predictable  
In every way  
I want you to know I know your game  
It's so unbelievable  
how you never change  
you won't get away  
with loving me  
you're just so predictable

I run  
You say you won't give up the chase  
You say you'll follow me anyplace  
So you can make the same mistakes

You know just what to do  
And How to use the best of you  
To try and change my mind  
But my eyes are opening this time  
And I read you

You're just so predictable  
In every way  
I want you to know I know your game  
It's so unbelievable  
how you never change  
you won't get away  
with loving me  
you're just so predictable

Now that I know your every move  
How you gonna hide baby what you gonna do  
Now that somebody knows the truth  
About you and how you're just so

You're just so predictable  
In every way  
I want you to know I know your game  
It's so unbelievable  
how you never change  
you won't get away  
with loving me  
you're just so predictable
