

# Delta Goodrem, Together We Are One

Here we are  
Sharing our lives  
We made it through  
The good and bad times  
And still we stand  
With hope in our hearts  
No matter what  
We will play our part  
And now we've come so far  
One chance to touch a star  
Go higher and higher

Find your guiding inspiration  
In a place where dreams are made  
With a lifetime's preparation  
Its no time to be afraid  
Put our differences behind us  
While we shine like the sun  
See what we've all become  
Together we are one

Deep inside your heart and soul  
Youve worked so hard  
To reach your goal  
With every step  
With every breath  
You gave it all  
Till there was nothing left  
Seek out the strength to win  
No thoughts of giving in  
Go higher and higher

Find your guiding inspiration  
In a place where dreams are made  
With a lifetime's preparation  
Its no time to be afraid  
Put our differences behind us  
While we shine like the sun  
See what we've all become  
Together we are one
