

# Demi Lovato, Butterfly

Used to dream the month of June  
Cause it reminded me of you  
And always came around too soon  
Not anymore  
A part of me I had to find  
Cause it was killin' me inside  
You were always like a bye  
I wasn't ready for

I figured this was something I deal with my whole life  
Stop pushin' my past to the side  
This is what it's posed to feel like  
Now I look up and I see you in the sky

Butterfly, Butterfly, Butterfly  
Butterfly, Butterfly, Butterfly  
Butterfly, Butterfly, Butterfly
