

# Demis Roussos, I Just Live

I just live every minute and I just love  
and I love to live,  
oo-hoo and I love to love,  
let me tell you now.

I just live every minute and I just love  
and I love to live,  
oo-hoo and I love to love.

I was born a natural lover,  
I got passion in my soul,  
so I celebrate with people  
and I make the good times roll  
and I love to live,  
oo-hoo and I love to love,  
let me tell you now.  
I just live every minute and I just love  
and I love to live,  
oo-hoo and I love to love.

I can't worry over money,  
let the money come and go.  
I not only love the one I'm with  
but everyone I know  
'cause I love to live,  
and I love to love,  
let me tell you now.  
I just live every minute and I just love  
and I love to live oo-hoo  
and I love to to love  
and live and live and love.

I'm up on a natural high.  
I'm up on a natural high.  
I'm up on a natural high.  
I'm up on a natural high.

If you're crying and complaining  
please don't share your tears with me.  
If you're looking for some romance,  
honey I'm the one you should see,  
'cause I love to live oo-hoo  
and I love to love,  
let me tell you now.

I don't know tomorrow's secrets  
I left yesterday back there,  
so I'm in for the good times  
and some tender tender loving care,  
'cause I love to live oo-hoo  
and I love to love,  
let me tell you now.  
I just live every minute and I just love  
and I love to live,  
oo-hoo and I love to love.
