

Demis Roussos, Love Is

Love is the ocean
Love is why we're here
Love is emotion
Like a feeling when you're near
Love is a sun shower
Love is out of sight
And it can surely dance
When it goes out at night
Love is a Thursday
Love is always a news
Love is a question
And a key you never lose
Love is the truth, now
Yes love is what we know
And it can surely be the reason of our soul
Love is
Love is

Love is our day-to-day
Love is the words we say
Love is a dream of now
Love as if I knew how
Love will you come to me
Love is what love will be

Love is a movement
Love is what we do
Love is an stranger like an old picture of you
Love is a secret
Love everyone knows
Is the way you fell when you live the rose
Love never stops to burn
Love is
Love is

Love is our day-to-day
Love is the words we say
Love is a dream of now
Love as if I knew how
Love will you come to me
Love is what love will be
