

Demis Roussos, My Only Fascination

You're my only fascination, my sweet inspiration
Everything I want could be
You're the sun that rises for me
My summer breeze from the sea

Some lucky day you came my way
and shut my joy and sorrow
With words so true, your colored blue the clear sky of tomorrow
I touched your hand and once again you gently say you need me
Your mother spring the love you bring is love for love you everyday

(chorus)

You're my only fascination, my sweet inspiration
Everything I hope to be
You're the dawn that rises for me
My summer wind from the sea
You're my only fascination, my sweet inspiration
You're my tender harmony
If it rains it's musical hear, only because you are near

For words you say in your way in your own way
Can fill my heart with sunshine
Some how i know this love will grow and
And that you'll always be mine
The morning dew can talk to you
and awake each morning
The friendly wind will stop and sing
The moment you say hello

Chorus x2
