Dennis Lloyd, Berlin

Staying up and it's getting late I think I might go insane Cause lately I feel like I'm lost, I'm out of control I'm Losing my mind Getting late and it's time to Wake up, Don't wanna miss out the train Cause whether I like it or not Some say till dawn Show must go on

Go round the world, Forget about the things We used to hold Let's take it to Berlin You by New York Until we find a place Where you belong I wanna take it, take it, take it I wanna take a trip around the world Forget about the things We used to hold Let's take it to Berlin You by New York Until we find a place Where you belong I wanna take it Take it to Berlin Where we belong

Tryina leave, but we can't escape I wish I could find a way
To take you wherever you shine
Where we can decide a way to be fine
Getting late and it's time to
Wake up,
Don't wanna miss out the train
Cause whether I like it or not
Some say till dawn
Show must go on

Go round the world, Forget about the things We used to hold Let's take it to Berlin You by New York Until we find a place Where you belong I wanna take it, take it, take it I wanna take a trip around the world Forget about the things We used to hold Let's take it to Berlin You by New York Until we find a place Where you belong I wanna take it Take it to Berlin Where we belong
