

Dennis Wilson, Dreamer

I know a carpenter who had a dream
Killed the man, but you couldn't kill the dream
Who said it was easy?
People gotta be free
And the band keeps on playin'

Oh, I know people who want to go far
Make big movies and become a star
People got to dream
Dreamer, who said it was easy?
And the band played
Play for me

Now I've seen people from near and far
They couldn't get to heaven in their car
Who said it was easy?
Driver, drive on

Ooh, let the wind carry your blues away
That's all we're tryin' to say
How 'bout a better day
Fall in love, ooh

And the band keeps on playin'
Play for me

Do you wonder where you are
Wake up in bed with a star
That was easy
Dreamer, dream on
And the band keeps on playing
Play
