Depeche Mode, Free

I will never be free
I shall never be released
From the chains that bind me
They torture and blind me
And keep me from peace

Oh, what heartache Oh, what heartbreak Following me Calling to me

I will never be free
I shall never be released
From the chains that bind me
They torture and blind me
And keep me from peace

I will never be free I will never be laid to rest Sisters and brothers I'll never recover From this tenderness

See what love breaks Hear what love sings Sad melodies Enticing me

I will never be free
I shall never be released
From the chains that bind me
They torture and blind me
And keep me from peace

I will never be free I will never be laid to rest Sisters and brothers I'll never recover From this tenderness
