Depeche Mode, Ghosts Again

Wasted feelings Broken meanings Time is fleeting See what it brings

Hellos, goodbyes, a thousand midnights Lost in sleepless Iullabies

Heaven's dreaming Thoughtless thoughts, my friends We know we'll be ghosts again

Sundays shining Silver linings Weightless hours All my flowers

A place to hide the tears that you cried Everybody says goodbye

Faith is sleeping Lovers in the end Whisper we'll be ghosts again

Heaven's dreaming
Thoughtless thoughts, my friends
We know we'll be ghosts again
Faith is sleeping
Lovers in the end
Whisper we'll be ghosts again
