

# Derdian, Music Is Life

There were a few times I opened my heart  
And you see sinkin every face and heart  
To carry hope, to carry hope  
I live the music in my soul

I keep my life away from daily distracts  
I hear my music tracks  
So carry hope, carry hope  
I keep my music in my soul  
So carry hope, carry hope  
I keep my music in my soul

Its the end of story  
No music, no lies  
Its a gift you receive from the sky  
You can pray for that glory, hunger or pride  
It goes through my veins  
Music is life

When life is gone and the faith is gone  
When they will steal my time  
When the work is done, when you cry for it  
It will be hard to survive

When we lose control  
You can lay your life to music  
And music is life

When life is gone and the faith is gone  
When they will steal my time  
When the work is done, when you cry for it  
It will be hard to survive

When we lose control  
You can lay your life to music  
And music is life

Its the end of story  
No music, no lies  
Its a gift you receive from the sky  
You can pray for that glory, hunger or pride  
It goes through my veins  
Music is life

Its the end of story  
No music, no lies  
Its a gift you receive from the sky  
You can pray for that glory, hunger or pride  
It goes through my veins  
Music is life
