

Des'ree, Living In The City

Let's celebrate, let's celebrate, living in the city
Yea yeah, aye aye, yea yeah, yeahhh!

Sitting in cafes, drinking Brazil
Watching old ladies struggle up the hill
The sun is winking at me, giving me the eye
There's no better place to watch the time trickle by

'Cos we're living in the city, there ain't no room for peace
Wow, we're living in the city, there ain't no time for sleep
Hey, we're living in the city, where everything is free
Oh, where I wanna be, hey hey, is living in the city
City eh eeh, city eh hh

Walking 'round the buildings, watching pictures on the wall
People lying homeless, got no love at all
Standing next to history, everything is grand
People from the country never understand

Find yourself a place (oh find yourself a place)
Where there's caring and there's sharing
Find yourself a space
where there's loving (loving), hoping (hoping),
touching, feeling, feeling

Living in, living in, living, living in the city
Where I wanna be, where I wanna be
Oh oh, ah ah ah, oh, ah ah...
