

# Detour 180, You Know My Name

Help me remember the reason I'm alive  
And that I was on your mind the day you died  
Help me imagine, this is not my home  
And some day I'll be resting by your side

Help me remember the day you won my heart  
And you paid my way to freedom with your love  
Help me imagine the beauty of this gift  
A grace that I am so unworthy of  
But you'll never let me fall away from you

Chorus:  
You know my name  
You know my story  
Still you've taken on the world  
Just for me  
I am amazed that you hear me speaking  
You listen close to every word I say  
Who am I to be loved this way?  
You know my name

If I rise, if I fall  
My only hope is this  
That you'd be with me everyday  
Who am I to be loved this way?

(2x's)  
Chorus
