

dEUS, Hotellounge

"this elevator only takes one down", she said,
"this place, this hotel lounge
it's my daily bread...
but i'm underfed";

he asked:
"are you living in the night?
cause i can tell you have a lousy imagination
and as a matter of speaking
i hate this situation...
but it happens to be one of my pickin'";

"cause it's so hard
to keep the dream alive
cause if it all comes down to this
how will...";

you move me, you move me |
you move me around around, i guess |
take it back your analogue |
it's on the other side of this |(x2)

cause if it all comes down to this
how will...

and then she said:
"and have another cigarette";
i tend to forget (but anyway i don't smoke that shit)
i hoisted the flag
but it keeps hanging down

"you know this place, this hotel lounge
it's my life, it's my choice
and i'm in love
with ricky lee jones' voice";

cause it's so hard
to keep the dream alive
and if it all comes down to this
how will...

you move me, you move me |
you move me around around, i guess |
take it back your analogue |
it's on the other side of this |(x5)

how will glamour survive? (x4)

and if it all comes down to this...

"this elevator only takes one down", she said,
"this place in this same old town";

"do you see that man
in the left-hand corner
do you see that woman
their love-story's famous";
