

# dEUS, Hotellounge

"this elevator only takes one down", she said,  
"this place, this hotel lounge  
it's my daily bread...  
but i'm underfed";

he asked:

"are you living in the night?  
cause i can tell you have a lousy imagination  
and as a matter of speaking  
i hate this situation...  
but it happens to be one of my pickin'";

"cause it's so hard  
to keep the dream alive  
cause if it all comes down to this  
how will...";

you move me, you move me |  
you move me around around, i guess |  
take it back your analogue |  
it's on the other side of this |(x2)

cause if it all comes down to this  
how will...

and then she said:

"and have another cigarette";  
i tend to forget (but anyway i don't smoke that shit)  
i hoisted the flag  
but it keeps hanging down

"you know this place, this hotel lounge  
it's my life, it's my choice  
and i'm in love  
with ricky lee jones' voice";

cause it's so hard  
to keep the dream alive  
and if it all comes down to this  
how will...

you move me, you move me |  
you move me around around, i guess |  
take it back your analogue |  
it's on the other side of this |(x5)

how will glamour survive? (x4)

and if it all comes down to this...

"this elevator only takes one down", she said,  
"this place in this same old town";

"do you see that man  
in the left-hand corner  
do you see that woman  
their love-story's famous";
