

# dEUS, Hotellounge (Be The Death Of Me)

"This elevator only takes one down", she said,  
"this place, this hotel lounge  
it's my daily bread...  
but I'm underfed";

He asked:  
"are you living in the night?  
cause I can tell you have a lousy imagination  
and as a matter of speaking  
I hate this situation...  
but it happens to be one of my pickin'";

"Cause it's so hard  
to keep the dream alive  
Cause if it all comes down to this  
how will...";

You move me, you move me  
You move me around around, I guess  
Take it back your analogue  
It's on the other side of this (x2)

Cause if it all comes down to this  
how will...

And then she said:  
"and have another cigarette";  
I tend to forget (but anyway I don't smoke that shit)  
And hoisted the flag  
but it keeps hanging down

"You know this place, this hotel lounge  
It's my life, it's my choice  
And I'm in love  
with Ricky Lee Jones' voice";

Cause it's so hard  
to keep the dream alive  
And if it all comes down to this  
how will...

You move me, you move me  
You move me around around, I guess  
Take it back your analogue  
It's on the other side of this (x5)

How will glamour survive? (x4)

And if it all comes down to this...

"This elevator only takes one down", she said,  
"this place in this same old town";

"Do you see that man  
in the left-hand corner  
Do you see that woman  
their love-story's famous";
