dEUS, Lets Get Lost

Let's get lost... all right, all right Let's get lost... all right

You know a place where we can go

ask your money get your money on a stool

Let's get lost... all right, all right Let's get out... and hold me some more

It's crazy, it's crazy, it's crazy, it's crazy, crazy In my own words

See you dancin' in your own damn rain Take it in and take it back again Looking nova when your fashion's old It's kinda early but the story's told
