

# dEUS, Roses

Rose said quote: "it's time to make a mess"  
Time won't be soon mine in time I guess  
She's painting on my back a beautiful flowerpot  
And she treats me she treats me she treats me like her local god

Rose said quote: "it's time to make a mess"  
This one's yours and yours is self obsessed  
She's painting on my back a green tom, the Beefheart one  
And she cuddles and she coos  
and she cuts the bullshit I confessed

She said: "Don't look my way  
What can I possibly say  
I've never seen you before today  
I'm just the one that makes you think of the one  
that makes you feel like you're the one."

But thank you for the roses for the roses  
So thank you for the roses for the roses  
Thank you for the roses for the roses (2 times)

Rose said quote: "it's time to make a mess"  
remind me what it is that I do best  
She's painting on my back some beautiful something sweet  
And she treats me, she treats me, she beats me

Rose said quote: "my time has come at last"  
Ugly things through my mind they have passed  
She's scratching on my back 'if this boy believes me'  
She leaves me, deceives me and takes those flowers just to  
please me...

Rose don't mind where she been  
She been blind  
She been mine  
all this time  
She been kind  
She been blind  
She says: "Thank you for the roses for the roses."

Just to thank you for the roses for the roses (5 times)

Just to thank you...
