

DI-RECT, She

DI-RECT - SHE

She, she's a mystery

she's a magic woman

a puzzle to me...

How she makes me fly

I'm happy to see...

Who would not fall in love -

with that look in her eyes,

on that smile

she's an angel...

who would not feel the blase

and the one single kiss

from her lips

she's an angel

She, she's a symfonie

and the chance that why to die

within' only for me

And she makes me cry

'cause I'm happy to see

Who would not fall in love

with that look in her eyes

on that smile

She's an angel...

Who would not feel the blase

and the one single kiss

from her lips...

She's an angel

only covered eyes

could ignore her beauty

'cause she came straight from heaven

who would not fall in love

with that look in her eyes

on that smile

she's an angel...

Who would not feel the blase

and the one single kiss

from her lips...

she's an angel (7x)
