

# Diabolicum, Heavens Die

[Sasrof, Nathzhion]

Heavens die  
Beyond false illusion of life  
Reigns the aeon of thee old  
And through veil of dark blood  
They will rape this world until  
It's black and cold

A plutonium fist in the face of god  
Will seal the last chapter of our fate  
A death created by hand  
But commanded by infernal hate

Moloch  
Let Heavens Die  
Heavens Die  
Let Heavens Die  
Heavens Die

[For Moloch And Pazuzu]
