

# Diabolicum, The War Tide (All Out Genocide)

(Sasrof, Nathzhion)

Malignant uncosmic movements  
Paralyses the universal cycles  
Creation of cephiroth  
Embraced in the blackness of chaos  
Darkness reigns  
Samelilith unites  
The worlds set aflame  
And mankind beholds with dread filled eyes

The war tide  
War tide  
Let the slaughter begin!

Come on!

All out genocide  
As the stars of darkness descends  
The serpent crawls  
Upon the weeping face of jehovah  
The infernal shockwaves  
Strike through heaven and earth  
Universal downfall  
Starts the ancient's rebirth

By the war tide  
War tide

(For the eleven warriors of Hubur/Azarate)
