

# Diamond Head, Diamond Lights

I have just arrived the soundcheck gets underway  
Three hours to go, then it's time to play  
Check guitars now baby, everything looks fine  
Now to do a number, take our time  
I smile as I look around me  
The band plays so tight  
I look around me, I see and feel  
Diamond lights, Diamond lights  
Soundcheck's finished baby, time to tell a joke or two  
Relax, can't let it get to you  
The haunted theatre now has come to life  
Time to tip you hat to the band  
Curtain up, the people welcome you  
Guess everything's alright  
I see the people now, hypnotised by  
Diamond lights, Diamond lights  
Diamond lights, Diamond lights  
Diamond lights, Diamond lights  
Diamond lights, Diamond lights  
Diamond lights, Diamond lights
