

# Diamond Rio, Old Weakness

She's back in town  
Haven't seen her yet  
But I know that that won't last  
Soon I'll turn around  
And be face to face  
With a feeling from my past

Chorus

She's an old weakness  
From a place I fell  
She's an old heartache  
One that time didn't heal too well  
It's an old story  
'bout a love gone wrong  
Just an old weakness  
Coming on strong

My hands still shake  
And my heart still aches  
Just knowing she's this close  
Those steel blue eyes  
And the way she smiles  
Are the things I fear the most

Chorus

I know the truth is showing  
I know I should be going home

Chorus

Just an old weakness  
Coming on strong
