

# Diamond Rio, Walkin' Away

Sometimes a careless word just rolls right off my tongue  
Now matter what I do it leaves you all undone  
Hey baby no need to go crazy over some little something Ive said  
Cant you see youre the keeper of my heart  
Even when I lose my head

Weve still got it good no matter how bad it gets  
Even after all this time the slipper still fits  
Hey just look at how far weve come by choosing to stay  
Baby dont go there love dont get nowhere walkin away

Sometimes the whisper of love gets lost in the angry shout  
Even hearts that are in this deep might think about an easy way out  
One honest touch makes those worries just fade like stars at dawn  
These occasional moments of weakness  
Only makes our love more strong

Weve still got it good no matter how bad it gets  
Even after all this time the slipper still fits  
Hey just look at how far weve come by choosing to stay  
Baby dont go there love dont get nowhere walkin away

It gets easier all the time  
Oh and harder and harder to leave behind

Weve still got it good no matter how bad it gets  
Even after all this time the slipper still fits  
Hey just look at how far weve come by choosing to stay  
Baby dont go there love dont get nowhere walkin away  
Baby dont go there love dont get nowhere walkin away
