

# Diana Krall, Love Is Where You Are

I used to walk between the shadows  
Lost in a world that grew too fast  
I was afraid I'd always be alone  
Then I saw your face at last  
I found my way even in the dark there were times it seemed too far  
I knew if I listen to my heart I found that love is where you are  
I close my eyes and see tomorrow  
My dreams begin and end with you  
I hear you say you'd be there, always be there  
I must believe it's true  
I found my way even in the dark there were times it seemed too far  
I knew if I listen to my heart I found that love is where you are  
Love is where you are and anywhere you are  
Is where I want to be  
No matter what will happen  
No matter where I go  
Your arms are hope to me  
I found my way even in the dark there were times it seemed too far  
Somehow I knew even at first sight  
That love is anywhere you are  
Love is where you are  
Love is where you are
