

Diana Ross, Baby It's Me

(Donald Dunn/Charles Smith)

You got the shakin', I got the shimmy
You got the takin', I got the gimme
And I don't want to go but baby you send me
You want it all and I wanna give it
You are the dream and I wanna live it
And I don't want to go but baby you send me

Baby it's me, I'm the same as you
A dreamer who dreams that's a dream come true
And all my life all I've wanted to meet someone just like you
Someone just like you who wants to love me, too
Someone just like you

We've got the spark, we've got the desire
The longer we burn the higher the fire
And baby take my heart, I want you to have it
Our love's a storm, it goes on forever
The more that it rains the better the weather
And baby take my heart, I want you to have it

Baby it's me, I'm the same as you
A dreamer who dreams that's a dream come true
And all my life all I've wanted to meet someone just like you
Someone just like you who wants to love me, too
Someone just like you

You got the shakin', I got the shimmy
You got the takin', I got the gimme
And I don't want to go but baby you send me
You want it all and I wanna live it
You got a dream and I wanna live it
And I don't want to go but baby you send me

Baby it's me, I'm the same as you
A dreamer who dreams that's a dream come true
And all my life all I've wanted to meet someone just like you
Someone just like you who wants to love me, too
Someone just like you

Oh yeah
Yeah
