

Diana Ross, Goin' Through The Motions

(P. Glass/S. Birch/S. Ray)

Play the game
Everything stays the same
A masquerade
Only ourselves to blame...

Love, taken for granted fades each passing day
We need more affection...
I, don't want to let you slip away...

We've been goin' through the motions
(But) there's more to life...oh ooh oh ooh oh
Than goin' through the motions,
(Our) love's on the line...oh ooh oh ooh oh...

You and I
Shouldn't lose our direction,
We can't deny
Love could use more attention...

We've traveled too far to let the feeling fade
This time we can change it...'cause
Dreams and passion are just a breath away...
