

# Diana Ross, Heart

(diane warren/robbie buchanan)

We said we'd try again  
But trying's not enough  
Acting like strangers  
Ain't no way of making love  
It's never gonna work  
It's time we stop pretending  
It's time to turn the page  
All stories need an ending

It makes no sense to stay  
Livin' my life in yesterday  
I'm leaving, I'm leaving  
And I'm begging you

Heart, don't change my mind  
Oh, heart be strong this time and try  
To help me tell him goodbye  
It'll only bring pain for us to stay  
Oh, heart it's hard for you I know  
Let me, let him go

Don't let me think about  
How good it was before  
I know you'd try anything  
To keep me from that door  
It's hard to leave him  
When you've loved him for so long now  
How can I walk away

If you're still holding on now?

I've finally found the strength  
Look at me, I can finally say  
It's over, it's over  
So, I'm begging you

Heart, don't change my mind  
Oh, heart be strong this time and try  
To help me tell him goodbye  
It'll only bring pain for us to stay  
Oh, heart it's hard for you I know  
Let me, let him go

It makes no sense to stay  
Sad that it has to end this way  
It's over, it's over

Heart, don't change my mind  
Oh, heart be strong this time and try  
To help me tell him goodbye  
It'll only bring pain for us to stay  
Oh, heart it's hard for you I know  
Let me, let him go

Heart, don't change my mind  
Oh, heart it's hard for you I know  
Let me, let him go  
Let me, let him go
